Guwahati - 781022 (Assam)

Sub: Six-monthly Report on progressive compliance to Environmental Clearance (EC) conditions for Onshore Oil & Gas Exploration, Appraisal & Early Production in AA-ONHP-2017/1 hydrocarbon Block falling in Dist.- Karbi Anglong & Golaghat, Assam.

Ref: **1) EC Letter no. SEIAA.1251/2020/EC/1476 dated 28.07.2021**
2) Amendment of EC Letter no. SEIAA.1895/2021/EC/1616 dated 12.01.2022

Dear Sir,

We are pleased to submit a point wise compliance status report of the conditions stipulated in the Environmental Clearance accorded by SEIAA, Assam for AA-ONHP-2017/1 Block for the period of October 2025 to March 2026.

Thanking you,

Yours faithfully,
For Vedanta Limited (Div.: Cairn Oil & Gas)

Dr BR
Jat

**SIX MONTHLY REPORT ON
PROGRESSIVE COMPLIANCE TO ENVIRONMENTAL CLEARANCE CONDITIONS**

Project name:	Onshore Oil & Gas Exploration & Appraisal & Early Production in AA-ONHP-2017/1 hydrocarbon Block falling in Dist.-Karbi Anglong & Golaghat, Assam.
Environmental Clearance letter no.:	SEIAA.1251/2020/EC/1476 dated 28.07.2021 for Exploration & Appraisal SEIAA.1895/2021/EC/1616 dated 12.01.2022 for Early Production
Reporting period:	October 2025 to March 2026
Project activity during reporting period:	No Exploratory Drilling & Appraisal activities during the reporting period.
Overall status of activities w.r.t. project defined in EC:	<p><u>Project defined in EC:</u></p> <ul style="list-style-type: none"> • Drilling of Exploratory & Appraisal Wells: 20 Nos. • Early Production: 12000 BOPD Crude oil and 2.4 MMSCFD associated Natural gas. <p><u>Overall Status:</u> Two (02) exploratory and appraisal wells have been drilled till this period.</p> <ol style="list-style-type: none"> 1. Well pad#29 (FW-004), Village: Chungajan Christian Basti, District: Golaghat Assam. Latitude - 26°1'14.49" N; Longitude - 93°51.14.09"E. Duration of drilling activities: Jun'24 to Sep'24. No commercially viable discovery found. The well pad had been plugged, and site has been restored. 2. Well pad# 28 (FW-001), Village: Naokata, District: Golaghat, Assam, Latitude - 26°0'45.08" N; Longitude - 93°48.54.69"E. Duration of drilling activities: Sep'24 to Nov'24. No commercially viable discovery found. The well pad had been plugged, and site has been restored.

S.No.	EC Conditions	Compliance Status
I.	Statutory Compliance	
i.	The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purpose involved in the project.	<u>Complied.</u> Final Approval (FC stage-II) had been obtained from MoEFCC for well pad# 28 (FW-001) vide letter no. F.No.3 AS B 102/2022-GHY/201-02 dated 20.06.2024. and Final Approval (FC stage-II) had been obtained from MoEFCC for well pad# 29 (FW-004) vide letter no. F.No.3 AS B 106/2022-GHY/183-84 dated 20.06.2024.
ii.	The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.	No well drill site/ project activities are in wildlife area.
iii.	The project proponent shall prepare a Site-Specific Conservation Plan & Wildlife Management Plan and approved by the Chief Wildlife Warden. The recommendations of the approved Site-Specific Conservation Plan/ Wildlife Management Plan shall be implemented in consultation with the State Forest Department. The implementation report shall be furnished along with the six-monthly compliance report. (in case of the presence of Schedule-I species in the study area)	<u>Complied.</u> Wildlife Conservation had been prepared for the block and submitted to PCCF-WL vide letter no. WLCP/AA-4/1 dated 05/06/2021. Following measures was adopted: • Fencing was done around the well pads including campsite to prevent any encounter with wild animals. • Awareness program had been carried out among working personnel involved in the project activity. • Road signages were provided along the roadside indicating the maximum speed limit near the project site.
iv.	The Project proponent shall obtain Consent to Establish/ Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board/ Committee.	<u>Complied.</u> Consent to Establish (CTE) had been obtained from PCBA vide letter no. WB/GOL/T-653/21-22/1259 dated 18.12.2021. Consolidated Consent & Authorisation (CCA)/ Consent to Operate & HWA had been obtained from PCBA for WP-29 (FW-004) located at Village: Chungajan Christian Basti, District: Golaghat, Assam vide letter no. WB/DIB/T-1105/2022-23/317/1381 dtd. 09.08.2024. Consolidated Consent & Authorisation (CCA)/ Consent to Operate & HWA had been obtained from PCBA for WP-28 (FW-001) located at Village: Naokata, District: Golaghat, Assam vide letter no. WB/DIB/T-1105/2022 -23/332/1856 dtd. 02.09.2024.

S.No.	EC Conditions	Compliance Status
v.	The project proponent shall obtain authorization under the Hazardous and other Waste Management Rules, 2016 as amended from time to time.	Complied Authorization under the Hazardous and other Waste Management Rules, 2016 was obtained vide letter no. WB/DIB/T-1105/2022-23/317/1381 dtd. 09.08.2024 for WP-29(FW-004) located at Village: Chungajan Christian Basti, District: Golaghat, Assam and for WP-28 (FW-001) located at Village: Naokata, District: Golaghat, Assam vide PCBA letter no. WB/DIB/T-1105/2022-23/332/1856 dtd. 02.09.2024.
vi.	The Company shall strictly comply with the rules and guidelines under Manufacture, Storage and Import of Hazardous Chemicals (MSIHC) Rules, 1989 as amended time to time. All transportation of Hazardous Chemicals shall be as per the Motor Vehicle Act (MVA), 1989.	Noted
II. Air quality monitoring and preservation		
i.	The project proponent shall install 24X7 continuous emission monitoring system at process stacks to monitor stack emission with respect to standards prescribed in Environment (Protection) Rules 1986 and connected to SPCB and CPCB online servers and calibrate this system from time to time according to equipment supplier specification through labs recognized under Environment (Protection) Act, 1986 or NABL accredited laboratories.	Complied. Environmental monitoring was carried out at Well pad-29 (FW-004) & Well pad-28 (FW-001) for respective pre-drilling, during drilling & post drilling activities. Monitoring reports for that reporting period are submitted along with earlier six-monthly compliance report. Parameters are found to be within the prescribed limits.
ii.	The project proponent shall monitor fugitive emissions in the plant premises at least once in every quarter through labs recognized under environment (Protection) Act, 1986.	Complied. Ambient Air quality monitoring was carried out for pre-drilling, during drilling and post drilling stages on both the Well pad - 29 (FW-004) & Well pad -28 (FW-001). Monitoring reports for that reporting period were already submitted along with earlier six-monthly compliance report. All parameters are found within prescribed limits. Periodic water sprinkling carried out in work areas and approach roads to prevent fugitive dust emissions.
iii.	The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM10 and PM25 in reference to PM emission, and SO2 and NOX in reference to SO2 and NOX emissions) within and outside the plant area at least at four locations (one within and three outside the plant area at an angle of 120 each), covering upwind and downwind directions.	Complied. Ambient Air quality monitoring was carried out for pre-drilling, during drilling and post drilling stages on both the Well pad - 29 (FW-004) & Well pad - 28 (FW-001). DG Stacks emission was also carried out in during drilling phase. Monitoring reports for that reporting period are already submitted along with earlier six-monthly compliance report. All parameters are found in prescribed limits.
iv.	To control source and the fugitive emissions, suitable pollution control devices shall be installed to meet the prescribed norms and/or the NAAQS. Sulphur content should not exceed 0.5% in the coal for use in coal fired boilers to control particulate emissions within permissible limits (as applicable). The gaseous emissions shall be dispersed through stack of adequate height as per CPCB/SPCB guidelines.	Complied. The following air pollution prevention and control measures have been implemented: <ul style="list-style-type: none"> • DG sets installed at site during drilling phase were provided with adequate stack heights. • Period maintenance of DG Sets and other equipment were carried out. • Periodic water sprinkling in work/activity areas and approach roads were provided. Vehicles with valid PUC certificates were only allowed at site.
v.	Storage of raw materials, coal etc shall be either stored in silos or in covered areas to prevent dust pollution and other fugitive emissions.	Complied. Raw material used for drilling such as Barite etc., were kept in bags under the shed. Other raw materials are kept with suitable cover.
vi.	National Emissions Standards for Organic Chemicals Manufacturing Industry issued by the Ministry vide	Not Applicable.

S.No.	EC Conditions	Compliance Status
	G.S.R. 608(E) dated 21 st July 2010 and amended from time to time shall be followed.	Not relevant to the Oil & Gas exploration & production projects.
vii.	The National Ambient Air Quality Emission Standards issued by the Ministry vide G.S.R. No.826 (E) dated 16 th November 2009 shall be complied with.	<u>Complied</u> Ambient Air quality monitoring was carried out for pre-drilling, during drilling and post drilling phase. DG Stack emission was also carried out in during drilling phase. Monitoring reports for that reporting period are already submitted along with earlier six-monthly compliance report. All parameters were found in prescribed limits.
III. Water quality monitoring and preservation		
i.	The project proponent shall provide online continuous monitoring of effluent; the unit shall install web camera with night vision capability and flow meters in the channel/ drain carrying effluent within the premises (applicable in case of the projects achieving ZLD)	<u>Complied</u> ETP was installed at site to treat the effluent during drilling. The treated effluent was used for drilling mud preparation, dust suppression and other misc. uses within the operational areas. Logbooks for ETP operation was maintained. Provision for septic tank and soak pit was made considering the small volume of domestic effluent and very short-term operation.
ii.	As already Environmental monitoring was done for treated and untreated effluent committed by the project proponent, Zero Liquid Discharge shall be ensured, and no waste/treated water shall be discharged outside the premises (applicable in case of the projects achieving the ZLD).	<u>Complied</u> ETP with physiochemical treatment was installed (Oil & grease trap, skimmer cum clarifier, PSF, ACF, treated storage tank, filter press). Treated effluent was reused for various purposes like mud preparation, dust suppression, floor washing etc. There was no discharge of effluent outside the project premises.
iii.	The effluent discharge shall conform to the standards prescribed under the Environment (Protection) Rules, 1986, or as specified by the State Pollution Control Board while granting Consent under the Air/Water Act, whichever is more stringent.	<u>Complied</u> No discharge of effluent. The effluent from drilling activities was collected in HDPE lined pits and treated in ETP and the treated effluent has been reused for drilling mud preparation, dust suppression and other misc. uses for both well pads. Parameters were found within the limit. Monitoring reports for that reporting period were already submitted along with last six-monthly compliance report.
iv.	Total freshwater requirement shall not exceed the proposed quantity or as specified by the Committee. Prior permission shall be obtained from the concerned regulatory authority/ CGWA in this regard.	<u>Complied.</u> No groundwater extracted for the project activities.
v.	Process effluent/any wastewater shall not be allowed to mix with storm water. The stormwater from the premises shall be collected and discharged through a separate conveyance system.	<u>Complied.</u> Wastewater was collected in separate pit. No mixing with storm water.
vi.	The company harvest rainwater from the roof tops of the buildings and storm water drains to recharge the ground water and utilized the same for different industrial operations within the plant.	Drilling is a short-term activity, hence Rooftop rainwater harvesting not feasible for the project. Rainwater harvesting will be carried out, during development and production phase.
vii.	The DG sets shall be equipped with suitable Pollution control devices and the adequate stack height so that the emissions are in conformity with the extant regulations and the guidelines in this regard.	<u>Complied.</u> DG sets were provided with adequate stack height. Stack monitoring was carried out. Parameters are found to be within the prescribed limits. Monitoring reports for that reporting period were submitted along with earlier six-monthly compliance reports.
IV. Noise monitoring and preservation		
i.	Acoustic enclosure shall be provided to DG set for controlling the noise pollution.	<u>Complied.</u> DG sets were provided with acoustic enclosures.
ii.	The overall noise levels in and around the plant area shall be kept well within the standards by providing	<u>Complied.</u>

S.No.	EC Conditions	Compliance Status
	noise control measures including acoustic hoods, silencers, enclosures etc, on all sources of noise generation.	DG sets were provided with acoustic enclosures for control of noise. Work zone noise and ambient noise monitoring was carried out at drill sites. Parameters were found within the prescribed standards. Monitoring reports for that reporting period were submitted along with earlier six-monthly compliance reports.
iii.	The ambient noise levels should conform to the standards prescribed under E(P)A Rules, 1986 viz, 75 dB(A) during daytime and 70 dB(A) during night-time.	Complied. Work zone noise and ambient noise monitoring were carried out at drill sites. Parameters were found within the prescribed standards. Monitoring reports for that reporting period were already submitted along with earlier six-monthly compliance report.
V.	Energy conservation measures	
i.	The energy sources for lighting purposes shall preferably be LED based	Complied. LED bubs/tube lights were provided at the drill sites.
VI.	Waste management	
i.	Hazardous chemical shall be stored in tanks, tank farms, drums, carboys etc. Flame arresters shall be provided on tank farm and the solvent transfer through pumps.	Not applicable. Not relevant to the oil & gas exploration & production projects, therefore not applicable.
ii.	Process organic residue and spent carbon, if any, shall be sent to cement industries. ETP sludge, process inorganic & evaporation salt shall be disposed of to the TSDF.	Not Applicable
iii.	The Company shall undertake waste minimization measures as below:	
	a. Metering and Control of quantities of active ingredients to minimize waste.	Not Applicable
	b. Reuse of by-products from the process as raw materials or as raw material substitutes in other processes.	Not Applicable
	c. Use of automated filling to minimize spillage.	Not Applicable
	d. Use of Close Feed system into batch reactors.	Not Applicable
	e. Venting equipment through vapours recovery system	Not Applicable
	f. Use of high-pressure hoses for equipment clearing to reduce wastewater generation.	Not Applicable
VII.	Greenbelt	
i.	The green belt of 5-10 m width shall be developed in more than 33% of the total project area, mainly along the plant periphery, in downward wind direction, and along roadsides etc. Selection of plant species shall be as per the CPCB guidelines in consultation with the State Forest Department.	Exploratory drilling is a very short term & temporary activity. In case of commercially viable discovery of hydrocarbons and during production in future greenbelt will be developed.
VIII	Safety, public hearing and human health issues	
i.	Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.	Complied. ERP (Emergency Preparedness Plan) prepared and made available at drill site. Periodic mock drills had been carried out at drill sites in drilling phase.
ii.	The unit shall make the arrangement for protection of possible fire hazards during manufacturing process in material handling. Fire-fighting system shall be as per the norms.	Complied. Adequate fire protection provision was made for drilling activities.
iii.	The PP shall provide Personal Protection Equipment (PPE) as per the norms of Factory Act.	Complied. Personal Protection Equipment (PPEs) were provided at both the drill sites.

S.No.	EC Conditions	Compliance Status
iv.	Training shall be imparted to all employees on safety and health aspects of chemicals handling. Pre-employment and routine periodical medical examinations for all employees shall be undertaken on regular basis. Training to all employees on handling of chemicals shall be imparted.	<u>Complied.</u> Regular trainings and awareness program were conducted at the well pads.
v.	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, creche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.	No Exploratory Drilling & Appraisal activities during the reporting period.
vi.	Occupational health surveillance of the workers shall be done on a regular basis and records maintained as per the Factories Act.	<u>Complied.</u> Regular health check-ups were done for workers at both the well pads in drilling phase. No Exploratory Drilling & Appraisal activities during the reporting period.
vii.	There shall be adequate space inside the plant premises earmarked for parking of vehicles for raw materials and finished products, and no parking to be allowed outside on public places.	<u>Complied.</u> Designated parking area was provided at site in drilling phase. No Exploratory Drilling & Appraisal activities during the reporting period.
IX.	Corporate Environment Responsibility	
i.	The project proponent shall comply with the provisions contained in this Ministry's IOM vide F. No. 22-65/2017 -1A-III dated 1 st May 2018, as applicable, regarding Corporate Environment Responsibility.	<u>Complied.</u> Various programs/ activities had been undertaken to the nearby community.
ii.	The company shall have a well laid down environment policy duly approved by the Board of Directors. The environment policy should prescribe for standards operating procedures to have proper checks and balances and to bring into focus any infringements/ violation of the environmental/ forest/ wildlife norms/ conditions. The company shall have defined system of reporting infringements/ deviation/ violation of the environmental/ forest/ wildlife norms/ conditions and/ or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted to the MOEF& CC as a part of six-monthly report.	<u>Complied.</u> Health, Safety, Environmental & Sustainability Policy have been made and implemented, duly signed by the ED, Vedanta Ltd.
iii.	A separate environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly report to the head of the organization.	<u>Complied.</u> Environment team with qualified & experienced professional is setup in the company. Head of the Environment reports to Director - HSE who reports to COO.
iv.	Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/ Regional Office along with the Six-Monthly Compliance Report.	<u>Complied.</u> EMP including environmental monitoring had been prepared and implemented during drilling operation.
v.	Self-environmental audit shall be conducted annually. Every three years third party environmental audit shall be carried out.	<u>Complied.</u> During drilling, audit/ inspection was carried out by HSE department.
X.	Miscellaneous	

S.No.	EC Conditions	Compliance Status
i.	The project proponent shall make public the environmental clearance granted for their project along with the environmental conditions and safeguards at their cost by prominently advertising it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days and in addition this shall also be displayed in the project proponent's website permanently.	<u>Complied.</u> Advertisement had been published in 'Assam Tribune' and 'Dainik Janmabhoomi' Newspapers on 03.09.2022. Copy of the Newspaper Advertisements are enclosed as Annexure-1.
ii.	The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.	<u>Complied.</u> Copies of the environmental clearance had been submitted to the Heads of Local and Municipal Bodies in addition to the relevant government offices on vide letter dated 10.02.2023.
iii.	The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.	<u>Complied.</u> Environmental Compliance is being prepared and uploaded on website on regular basis.
iv.	The project proponent shall monitor the criteria pollutants level namely, PM ₁₀ , SO ₂ , NO _x (ambient levels as well as stack emissions) or criteria sectoral parameters, indicated for the projects and display the same at a convenient location for disclosure to the public and put on the website of the company.	<u>Complied.</u> Environmental Monitoring was done for pre-drilling, during drilling and post drilling stages for well pads. Parameters are found within the prescribed limit.
v.	The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.	<u>Complied</u> Six-monthly compliance report is being prepared and submitted regularly.
vi.	The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and out on the website of the company.	<u>Complied</u> Environment Statement (Form-V) are submitted to the Pollution Control Board for Well Pad-28 (FW-001) vide office letter Ref: WP-28 (FW-001) (AA-ONHP-2017/1)/2025/Form-V/1 dated 15.09.2025 and for Well Pad-29 (FW-005) vide office letter Ref. WP-29 (FW-004) (AA-ONHP-2017/1)/2025/Form-V/1 dated 15.09.2025.
vii.	The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.	<u>Noted</u>
viii.	The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.	<u>Complied.</u> Conditions stipulated in CTE & CTO was strictly followed towards prevention & control of environment.
ix.	The project proponent shall abide by all the commitments and recommendations made in the EIA/ EMP report, commitment made during Public Hearing and also that during their presentation to the Expert Appraisal Committee.	<u>Complied.</u> EMP has been implemented towards pollution prevention & control and safeguard of environment and ecology.
x.	No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment Forest and Climate Change (MoEF&CC).	<u>Noted</u>
xi.	Concealing factual data or submission of false/ fabricated data may result in revocation of this	Noted

S.No.	EC Conditions	Compliance Status
	environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.	
xii.	The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.	Noted
xiii.	The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.	Noted
xiv.	The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer(s) of the Regional Office by furnishing the requisite data/ information/ monitoring reports.	Noted.
xv.	The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India/ High Courts and any other Court of Law relating to the subject matter.	Noted
xvi.	Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010	Noted

ANNEXURE - 1

WEATHER GUWAHATI

LOCAL FORECAST:
Generally cloudy sky with one or two spells of rain or thunder showers. Maximum and minimum temperatures are most likely to be 31°C and 26°C respectively.

TEMPERATURE:
Max 33.4°C
Min 26.2°C

WWF India launches 'Bring Back the Vulture' poster campaign

STAFF REPORTER

GUWAHATI, Sept 2: WWF India today launched the nationwide – Bring Back the Vulture – poster campaign to safeguard the endangered species synchronising with International Vulture Awareness Day.

The poster is being shared with State Forest and Education departments and other institutions for spreading the awareness about these species and call for action to conserve them.

The poster is available – besides Assamese – in Hindi, Marathi, Gujarati, Malayalam, Telegu, Tamil, Kannada and Bengali for a wider reach at the grass-roots level.

WWF Assam State Office organised a programme on the occasion at the Vulture Conservation Breeding Centre, Rani, today.

WWF AAPSO State coordinator Archita Baruah Bhattacharyya said that the programme comprised a brief on vultures and the im-

portance of the day to bring back the vulture along together with distribution of vulture posters to the youth of various colleges and universities.

“WWF India launches a poster on vulture species in India with conservation information on each species, on

International Vulture Awareness Day. Vultures are often demonised due to the way they appear and the task they perform in nature’s food chain. This undermines their importance as cleaners of our environment, controlling the spread of diseases from decaying dead animals,”

Bhattacharyya said.

Sachin P Ranade, assistant director, Bombay Natural History Society (BNHS), Assam, addressed the participants by giving an overview of vulture conservation and the breeding centre.

To improve the understanding of people about vul-

tures, WWF India has created the poster – Bring Back the Vulture – highlighting the nine species of vultures found in the country.

The population of vultures has declined to a very low number and their conservation in the country is imperative. Various steps like captive breeding of a few species, banning the use of Diclofenac sodium in veterinary treatment and monitoring vulture populations in the wild have been taken up by the government and several conservation organisations.

Ravi Singh, secretary-general and CEO, WWF India said: “Spreading awareness about the species of vultures in India will help address the need of conserving them. Some conservation efforts are being made to protect and improve the vulture populations in the country. With initiatives like these, we hope the populations of vultures increase and that they will continue to contribute ecological services at some scale.”

Odissi Utsav

CITY CORRESPONDENT

GUWAHATI, Sept 2: The Assam Odissi Forum is organising the Guwahati Odissi Utsav-2022, a classical dance festival at Dr Banikanta Kakati auditorium, Srimanta Sankaradeva Kalakshetra here on September 3 and 4.

Dancers from all Odissi dance institutions will participate in the programme.

The organiser said that the festival is a tribute to renowned exponent of Sattriya and Odissi dance forms, late Gorima Hazarika.

Eminent sociologist Dr Prafulla Mahanta no more

CITY CORRESPONDENT

GUWAHATI, Sept 2: Dr Prafulla Mahanta, former director of Anundoram Borooh Institute of Language, Art and Culture (ABILAC), Assam, sociologist and reputed researcher of socio-economic aspects of the Assamese society, died after a brief ailment in the early hours today.

He was 82. Dr Mahanta, a resident of Jyoti Path in Bhetapara, leaves behind his wife, two sons, a daughter, grandchildren and a host of relatives.

Dr Mahanta’s family members told

The Assam Tribune that he was admitted to a private hospital on August 22 and on last Wednesday, he was shifted to the Gauhati Medical College and Hospital (GMCH).

“After he was diagnosed with throat cancer in 2008, his health condition continued to deteriorate. He breathed his last at 2:50 am in the GMCH,” said Rituparna Mahanta, daughter of Dr Mahanta.

“Before his demise, he had pledged his body to the upcoming AIIMS at Changsari,” she added.

His body was first taken to his residence where hundreds of people gathered to pay their last tributes to the departed soul.

Born in Nagaon, noted writer and educationist Dr Mahanta studied in Khalo Gaon Primary school, Gosainburi ME School and Jajori High School. He completed his undergraduate degree from the Anandaram Dhekiel Phookan College, Nagaon in 1962 and postgraduate degree from Gauhati University in 1966.

Starting his career as a school teacher, he was the principal (in-charge) of Diphu College for nearly two years. He then joined Mariani College where he taught Assamese for almost 26 years.

He joined the ABILAC as a senior research fellow in 1994. He assumed

the charge of director of ABILAC in 1998 and retired from service in 2005.

He also served as the editor of an Assamese daily *Natun Samay* for a period of around two years.

Dr Mahanta had 16 books to his credit. His book titled *Samaj Nayak Sankaradeva - Oitihashik Prekshapat* was published in March this year. The book titled *Asomiya Madhyabitta Shrenir Itihas* is another notable work of the writer.

His other works include *Janagoshthiya Chetana: Atmapratisthar Prasna, Asomiya Jatiyatadabar Uta Prasanga, Samaj Sangskriti Itihas Iyadai, Janajatiya Swadhinik Andolan aru Boro Jati Satta, Borobhumir Usuponi, Bishay: Janajati Marmabedana, Oitihashik Prekshapatat Janajatiya Samasya, Sankaradeva aru Boro Jati, Oitihashik Prekshapatat Khilonjijay Ostitwor Sankat aru Anuprabeshar Samasya, Khilanjari Suraksha aru Jati Janagoshthir Oikyor Sutradhar Borosokol, Hindubad-Barnabad Bidhwasta Asomiya Jatiyatadabar aru Nabajagrat Janajatiya Chetana, and Adhunik Asomiya Sahitya: Samajik-Boudhik Patabhumi aru Anyanya.*

His published novels are *Sonair Sat* and *Itihase Ringia*. Dr Mahanta was conferred the

Baishnab Pandit Sashichandra Barbrauh Award 2021, instituted by the Assam Sahitya Sabha.

He also received the Ambikacharan Choudhury Itihas Chetana Award 2018 instituted by the Asomiya Sahitya Sammilani and Man of the Year-2016 award instituted by Engkhong Welfare Society of Chirang district, among others.

Jiban aru Anweshan, edited by Ajit Kumar Bhuyan and Jitendra Lal Sarma, is a felicitation volume on the life and deeds of Dr Mahanta.

Chief Minister Himanata Biswa Sarma expressed deep grief over the demise of Dr Mahanta. In a condolence message, Sarma said: “The writer enriched Assamese literature with his books like *Asomiya Madhyabitta Shrenir Itihas* and *Samaj Nayak Sankaradeva - Oitihashik Prekshapat*, among others. Moreover, he also made considerable contributions to the education sector of the State.”

He also termed the death of Mahanta as an irreparable loss to the Assamese society. Sarma also extended his deepest condolences to the bereaved family and prayed for the eternal peace of the departed soul.

The Indigenous Tribal Sahitya Sabha, Assam (ITSSA) also condole the death of Dr Mahanta.

Teacher felicitation programme

STAFF REPORTER

GUWAHATI, Sept 2: On the occasion of Teachers’ Day, Prayas, an alumni group of the 1981-83 batch of erstwhile Cotton College is organising a teacher felicitation programme on September 3. In the event, the group will felicitate ten retired teachers of the educational institution. The event will be held at the Sudmersen Hall of the University at 4 pm. The organisers request every Cottonian of the said batch to be present in the event.

ASACS holds refresher training

CITY CORRESPONDENT

GUWAHATI, Sept 2: A one-day orientation-cum-refresher training with medical officers, counselling personnel and laboratory technicians of private hospitals was organised by the Assam State AIDS Control Society (ASACS) at the Assam Administrative Staff College on Wednesday.

Medical officers comprising pathologists, microbiologists and gynaecologists and other technical officials from 22 private hospitals of Kamrup (Metro), Kamrup and Nalbari districts participated in the workshop. These private hospitals are working in the field of HIV with ASACS under Public Private Partnerships (PPP).

During the workshop, the participants were enlightened on HIV and Syphilis screening, referral and coverage, care, support and treatment, HIV (Prevention and Control) Act, 2017 and other aspects related to HIV.

The participants actively participated in the training in each session as per the agenda and were awarded with certificates.

Inception workshop organised

GUWAHATI, Sept 2: A State Level Inception Workshop was jointly organised by NITI Aayog and ITC Limited under ITC Mission Sunherakal Aspirational District Programme at the Administrative Staff College recently, a press release stated.

The programme was formally inaugurated by Atul Bora, Minister Agriculture, Horticulture, Food Processing and Animal Husbandry, Lt Col Updesh Sharma, Joint Advisor, Aspirational District Programme NITI Aayog in the presence of Dr Ramani Kanta Talukdar, Director, Open and Distance Learning, AAU, Khanindra Choudhury, Deputy Commissioner, Goalpara and Dr Amiya Kumar Sharma, Executive Director, Rashtriya Gramin Vikas Nidhi (RGVN).

The inception workshop was attended by the Additional Deputy Commissioner, Baksa, Assistant Commissioner, Baksa, District Agriculture Officers, District Veterinary Development Officers, District Fishery Develop-

ment Officers, Senior Scientist and Head from Krishi Vigyan Kendra, LDM Incharge, K Binoy, Regional Manager East, ITC Ltd, Senior Programme Manager, and ITC MSK Aspirational District team Assam. Dr Sharma, Executive Director, RGVN in his welcome address said in the line with the implementation strategy adopted for development of aspirational districts, the same should be adopted for non-aspirational districts too for holistic development of the State in specific and country.

Minister of Agriculture Atul Bora said that even after 75 years of Independence some districts are lagging behind in terms of productivity and there is a need to boost the agricultural productivity through scientific methods.

Lt Col Updesh Sharma, Joint Advisor, Aspirational District Programme, from NITI Aayog said, that focus should be on key indicators like soil health card, PMFBY, irrigation and cropping intensity to emphasise more on awareness and actualization.

UNESCO Association Guwahati completes 25 years

GUWAHATI, Sept 2: On the completion of 25 years of its existence, the UNESCO Association Guwahati observed its silver jubilee celebration at the central auditorium of the University of Science & Technology (USTM), Khanapara, recently, a press release stated.

Dr Ramesh Ch Barpatragohain, former Advocate General of Assam was the chief guest. In his keynote speech, Dr Barpatragohain congratulated the UAG for completing 25 years of its services to the society in the field of education, science, culture, environment and

health. Dr (Prof) GD Sharma, Vice-Chancellor of USTM in his speech said that “UAG has done a commendable job for the last 25 years by rendering yeoman services for the benefit of human kind in the entire NE region.”

Yogesh Kulshrestha, secretary general of the Confederation of UNESCO clubs, Centres & Associations, New Delhi in his speech said, “UAG has been rendering remarkable services to the society in spreading the ideals of UNESCO among the people. He lauded the efforts of UAG for establishing the UN/UNESCO library

reading rooms in schools, colleges and universities in Assam for promoting knowledge among the student community in particular and people in general. Dr (Prof) LL Singh, Vice Chancellor of Bodoland University in his speech said that “UAG is celebrating silver jubilee on completion of 26 years of its existence and it is a proud and privilege for all of us to have UAG in our region which has been providing commendable services to humankind in promoting knowledge and creating awareness about the ideals of UNESCO among the people through education, science,

culture & environment.”

The University of Science & Technology (USTM) has been awarded a resource centre for UN-NER community excellence award in recognition of the University’s contribution for promoting peace, brotherhood and inclusiveness among various indigenous communities of the NER through its extension services and free education provided to underprivileged students. A community excellence award was handed over to Prof GD Sharma – Vice-Chancellor of USTM by Dr Aswini Sarma, secretary general of UAG & the regional coordinator of

UCUAI for NER. Pragyoitish College, Guwahati presented a seminar on ‘Ambubachi Mela-2022: An observation in consonance with UN sustainable development goals’. The presentation were made by faculties of the college – Dr Arpita Das, Dr Baghmita Bhagawati and Dr Mridusmita Devi.

It may be mentioned that UAG has opened UN/UNESCO library reading corners in schools, colleges and universities and public institutions in Assam where books, journals of UN, UNESCO, World Bank, UNDP, UNICEF, WHO, etc., are available.

ADBU team wins 6th Smart India Hackathon Software Edition

CITY CORRESPONDENT

GUWAHATI, Sept 2: Terra Vision, a team of six students and two mentors from Assam Don Bosco University (ADBU), was declared winner and bagged Rs 1 lakh prize money at the grand finale of the 6th edition of Smart India Hackathon (SIH) Software Edition, organised by the Government of India in collaboration with the All India Council for Technical Education (AICTE) and Ministry of Education (MoE) recently.

A press release issued here today stated that the team comprised of mentors Rupesh Mandal and Nupur Choudhury and the students Sumedha Sutradhar, Priyanka Chettri, Nazrul Ansari, Abhijit Buragohain, Karan Boro and Palash Jyoti Nath.

They were part of the 2000 teams that had made it to the finals surpassing the five-level selection process.

These young engineers from various colleges and universities across India were competing over problem statements given to them by the Ministry. It was a non-stop 36 hours coding event in which the team proposed a solution for ‘To predict the local impact of urban flooding in major cities’ under the Ministry of Housing and Urban Affairs.

For ADBU, this has been the fourth win in Software Edition and overall fifth selection in the grand finale which includes the Hardware Edition (2020) since its inception.
