Sub: Six-monthly Report on progressive compliance to Environmental Clearance (EC) conditions for Onshore Oil and Gas Exploration, Appraisal and Early Production in AA-ONHP-2017/11 Block in Jorhat and Golaghat districts of Assam.

Ref: File no. SEIAA.1719/2021 dated 01.02.2022, EC Identification No.EC22B002AS110231 dtd.01.02.2022

Dear Sir,

We are pleased to submit a point wise compliance status report of the conditions stipulated in the Environmental Clearance accorded by SEIAA, Assam for AA-ONHP-2017/11 Block for the period of October 2025 to March 2026.

Thanking you,

Yours faithfully,
For Vedanta Limited (Div.: Cairn Oil & Gas)

**SIX MONTHLY REPORT
ON PROGRESSIVE COMPLIANCE TO ENVIRONMENTAL CLEARANCE CONDITIONS**

Project name:	Onshore Oil & Gas Exploration & Appraisal project & Early production in AA-ONHP-2017/11 Block in Jorhat & Golaghat districts of Assam
Environmental Clearance no.:	File No. SEIAA.1719/2021 dated 01.02.2022, EC Identification No.: EC22B002AS110231
Reporting period:	October 2025 to March 2026
Project activity during reporting period:	No exploratory & appraisal well drilling and early production activities carried out in the reporting period.
Overall status of activities w.r.t. project defined in EC:	<p>Project defined in EC:</p> <ul style="list-style-type: none"> • Drilling of Exploratory & Appraisal Wells: 11 Nos. • Early Production Units (EPUs)/ Quick Production Units (QPU): 4 Nos. • Early Production: 8000 BOPD Crude Oil & 1.6 MMSCFD Natural gas. <p>Overall Status: No Exploration & Appraisal well drilling and Early production activities carried out in the AA-ONHP-2017-11 block till date.</p>

S. No.	EC Conditions	Compliance Status
I	Statutory Compliance	
i.	The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purpose involved in the project.	Not applicable. No forest land involved in block.
ii.	The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.	No protected area, no well location within ESZ.
iii.	The project proponent shall prepare a Site-Specific Conservation Plan & Wildlife Management Plan and approved by the Chief Wildlife Warden. The recommendations of the approved Site-Specific Conservation Plan/ Wildlife Management Plan shall be implemented in consultation with the State Forest Department. The implementation report shall be furnished along with the six-monthly compliance report. (in case of the presence of Schedule-I species in the study area)	Not Applicable
iv.	The Project proponent shall obtain Consent to Establish/ Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board/ Committee.	Consent to establish / operate will be obtained prior to drilling.
v.	The project proponent shall obtain authorization under the Hazardous and other Waste Management Rules, 2016 as amended from time to time.	Hazardous waste authorization will be obtained prior to drilling.
vi.	The Company shall strictly comply with the rules and guidelines under Manufacture, Storage, and Import of Hazardous Chemicals (MSIHC) Rules, 1989 as amended time to time. All transportation of Hazardous Chemicals shall be as per the Motor Vehicle Act (MVA), 1989	Noted
II.	Air quality monitoring and preservation	
i.	The project proponent shall install 24X7 continuous emission monitoring system at process stacks to monitor stack emission with respect to standards prescribed in Environment (Protection) Rules 1986 and connected to SPCB and CPCB online servers and calibrate these systems from time to time according to equipment supplier specification through labs recognized under Environment (Protection) Act, 1986 or NABL accredited laboratories.	No exploratory & appraisal well drilling and early production activity till date. To be complied with during project activity in future.
ii.	The project proponent shall monitor fugitive emissions in the plant premises at least once in every quarter through labs recognized under environment (Protection) Act, 1986.	No exploratory & appraisal well drilling and early production activity till date. To be complied with during project activity in future.

S. No.	EC Conditions	Compliance Status
iii.	The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM10 and PM25 in reference to PM emission, and SO2 and NOX in reference to SO2 and NOX emissions) within and outside the plant area at least at four locations (one within and three outside the plant area at an angle of 120 each), covering upwind and downwind directions.	No exploratory & appraisal well drilling and early production activity till date. To be complied with during project activity in future.
iv.	To control source and the fugitive emissions, suitable pollution control devices shall be installed to meet the prescribed norms and/or the NAAQS. Sulphur content should not exceed 0.5% in the coal for use in coal fired boilers to control particulate emissions within permissible limits (as applicable). The gaseous emissions shall be dispersed through stack of adequate height as per CPCB/ SPCB guidelines.	No exploratory & appraisal well drilling and early production activity till date. To be complied with during project activity in future.
v.	Storage of raw materials, coal etc shall be either stored in silos or in covered areas to prevent dust pollution and other fugitive emissions.	No exploratory & appraisal well drilling and early production activity till date. To be complied with during project activity in future.
vi.	National Emissions Standards for Organic Chemicals Manufacturing Industry issued by the Ministry vide G.S.R. 608(E) dated 21 st July 2010 and amended from time to time shall be followed.	Not relevant to the oil & gas exploration & production projects.
vii.	The National Ambient Air Quality Emission Standards issued by the Ministry vide G.S.R. No. 826(E) dated 16 th November 2009 shall be complied with.	No exploratory & appraisal well drilling and early production activity till date. To be complied with during project activity in future.
III.	Water quality monitoring and preservation	
i.	The project proponent shall provide online continuous monitoring of effluent, the unit shall install web camera with night vision capability and flow meters in the channel/ drain carrying effluent within the premises (applicable in case of the projects achieving ZLD)	No exploratory & appraisal well drilling and early production activity till date. To be complied with during project activity in future.
ii.	As already committed by the project proponent, Zero Liquid Discharge shall be ensured, and no waste/ treated water shall be discharged outside the premises (applicable in case of the projects achieving the ZLD).	To be complied with
iii.	The effluent discharge shall conform to the standards prescribed under the Environment (Protection) Rules, 1986, or as specified by the State Pollution Control Board while granting Consent under the Air/Water Act, whichever is more stringent.	To be complied with
iv.	Total freshwater requirement shall not exceed the proposed quantity or as specified by the Committee. Prior permission shall be obtained from the concerned regulatory authority/ CGWA in this regard.	No ground water will be extracted for this project.
v.	Process effluent/any wastewater shall not be allowed to mix with storm water. The storm water from the premises shall be collected and discharged through a separate conveyance system.	To be complied with
vi.	The company harvest rainwater from the roof tops of the buildings and storm water drains to recharge the ground water and utilized the same for different industrial operations within the plant.	Drilling is a very short-term activity. Rainwater harvesting not feasible during exploration phase.
vii.	The DG sets shall be equipped with suitable Pollution control devices and the adequate stack height so that the emissions are in conformity with the extant regulations and the guidelines in this regard.	No exploratory & appraisal well drilling and early production activity till date. To be complied with during project activity in future.
IV.	Noise monitoring and preservation	
i.	Acoustic enclosure shall be provided to DG set for controlling the noise pollution.	To be complied with

S. No.	EC Conditions	Compliance Status
ii.	The overall noise levels in and around the plant area shall be kept well within the standards by providing noise control measures including acoustic hoods, silencers, enclosures etc, on all sources of noise generation.	Noted for compliance
iii.	The ambient noise levels should conform to the standards prescribed under E(P)A Rules, 1986 viz, 75 dB(A) during daytime and 70 dB(A) during night-time.	Noted for compliance
V.	Energy conservation measures	
i.	The energy sources for lighting purposes shall preferably be LED based	No exploratory & appraisal well drilling and early production activity till date. To be complied with during project activity in future.
VI.	Waste management	
i.	Hazardous chemical shall be stored in tanks, tank farms, drums, carboys etc. Flame arresters shall be provided on tank farm and the solvent transfer through pumps.	Not relevant to the oil & gas exploration & production projects, therefore not applicable.
ii.	Process organic residue and spent carbon, if any, shall be sent to cement industries. ETP sludge, process inorganic & evaporation salt shall be disposed off to the TSDF.	Not Applicable
iii.	The Company shall undertake waste minimization measures as below: -	
	a. Metering and Control of quantities of active ingredients to minimize waste.	Not Applicable
	b. Reuse of by-products from the process as raw materials or as raw material substitutes in other processes.	Not Applicable
	c. Use of automated filling to minimize spillage.	Not Applicable
	d. Use of Close Feed system into batch reactors.	Not Applicable
	e. Venting equipment through vapors recovery system.	Not Applicable
	f. Use of high-pressure hoses for equipment clearing to reduce wastewater generation.	Not Applicable
VII.	Greenbelt	
i.	The green belt of 5-10 m width shall be developed in more than 33% of the total project area, mainly along the plant periphery, in downward wind direction, and along roadsides etc. Selection of plant species shall be as per the CPCB guidelines in consultation with the State Forest Department.	Exploratory drilling is a very short-term activity. In case of commercially viable discovery of hydrocarbons, it will be complied with in production phase.
VIII.	Safety, public hearing, and human health issues	
i.	Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.	ERP has been prepared and will be made available at site.
ii.	The unit shall make the arrangement for protection of possible fire hazards during manufacturing process in material handling. Firefighting system shall be as per the norms.	Adequate fire protection measures will be made available at site.
iii.	The PP shall provide Personal Protection Equipment (PPE) as per the norms of Factory Act.	PPEs will be provided to the workers at site.
iv.	Training shall be imparted to all employees on safety and health aspects of chemicals handling. Pre-employment and routine periodical medical examinations for all employees shall be undertaken on regular basis. Training to all employees on handling of chemicals shall be imparted.	Regular trainings and awareness programme will be conducted at site.
v.	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, creche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.	Not applicable. No housing for construction workers proposed at drill site.
vi.	Occupational health surveillance of the workers shall be done on a regular basis and records maintained as per the Factories Act.	Regular health check-up will be done at site.

S. No.	EC Conditions	Compliance Status
vii.	There shall be adequate space inside the plant premises earmarked for parking of vehicles for raw materials and finished products, and no parking to be allowed outside on public places.	No exploratory & appraisal well drilling and early production activity till date. To be complied with during project activity in future.
IX.	Corporate Environment Responsibility	
i.	The project proponent shall comply with the provisions contained in this Ministry's IOM vide F. No. 22-65/2017-1A III dated 1 st May 2018, as applicable, regarding Corporate Environment Responsibility.	Various programs/ activities will be undertaken for nearby community.
ii.	The company shall have a well laid down environment policy duly approved by the Board of Directors. The environment policy should prescribe for standards operating procedures to have proper checks and balances and to bring into focus any infringements/ violation of the environmental/ forest/wildlife norms/ conditions. The company shall have defined system of reporting infringements/ deviation/ violation of the environmental/ forest/wildlife norms/ conditions and/ or shareholders/ stake holders. The copy of the board resolution in this regard shall be submitted to the MOEF& CC as a part of six-monthly report.	Health, safety, environment & sustainability policy duly signed by the CEO of the company has been prepared and will be implemented at site.
iii.	A separate environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly report to the head of the organization.	Environment team with qualified & experienced professional has been setup in the company. Head of the Environment reports to Chief HSE & Sustainability Officer who reports to COO.
iv.	Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six-Monthly Compliance Report.	No exploratory & appraisal well drilling and early production activity till date. To be complied with during project activity in future.
v.	Self-environmental audit shall be conducted annually. Every three years third party environmental audit shall be carried out.	No exploratory & appraisal well drilling and early production activity till date. To be complied with during project activity in future.
X.	Miscellaneous	
i.	The project proponent shall make public the environmental clearance granted for their project along with the environmental conditions and safeguards at their cost by prominently advertising it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days and in addition this shall also be displayed in the project proponent's website permanently.	Advertisement has been published in 'Assam Tribune' and 'Dainik Janmabhoomi' newspapers on 04.09.2022 respectively. Copy of the Newspapers Advertisements are enclosed in Annexure-1 .
ii.	The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.	To be complied.
iii.	The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.	Complied. Environmental Compliance is being prepared and uploaded on website on regular basis.
iv.	The project proponent shall monitor the criteria pollutants level namely, PM 10, SO ₂ , NO _x (ambient levels as well as stack emissions) or criteria sectoral parameters, indicated for the projects and display the same at a convenient location for disclosure to the public and put on the website of the company.	No exploratory & appraisal well drilling and early production activity till date. To be complied with during project activity in future.
v.	The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental	Complied. Six-monthly compliance report is being prepared and submitted regularly.

S. No.	EC Conditions	Compliance Status
	conditions on the website of the ministry of Environment, Forest, and Climate Change at environment clearance portal.	
vi.	The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and out on the website of the company.	Noted for compliance
vii.	The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.	Noted for compliance
viii.	The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.	Noted
ix.	The project proponent shall abide by all the commitments and recommendations made in the EIA/ EMP report, commitment made during Public Hearing and also that during their presentation to the Expert Appraisal Committee.	To be complied with.
x.	No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment Forest and Climate Change (MoEF&CC).	Noted
xi.	Concealing factual data or submission of false/ fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.	Noted
xii.	The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.	Noted
xiii.	The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.	Noted
xiv.	The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer(s) of the Regional Office by furnishing the requisite data / information / monitoring reports.	Noted
xv.	The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India/ High Courts and any other Court of Law relating to the subject matter.	Noted
xvi.	Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010	Noted.

ANNEXURE - 1

Cancer research centre to come up at IIT Guwahati

STAFF REPORTER

GUWAHATI, Sept 3: A Centre of Advanced Research on Diagnostics in Cancer will come up at the Indian Institute of Technology (IIT) Guwahati.

"IIT Guwahati celebrated its 29th foundation day on September 1 by signing a memorandum of understanding (MoU) with Karkinos Healthcare Private Limited (KHPL) for research collaboration on cancer diagnostics. The MoU was signed between IITG director TG Sitharam and KHPL CEO R Venkataramanan. Under the agreement, a Centre of Advanced Research on Diagnostics in Cancer (C-CARD), a first of its kind in the nation with an IIT, will be set up at IITG," said a statement issued on Friday.

The centre will be equipped and

operated by KHPL at the IITG premises. The primary aim of this centre will be to work on research related to advanced and affordable diagnostics solutions for non-communicable diseases, primarily cancer, for patients from across the nation.

Speaking during the MoU signing event, Sitharam said, "IITG aspires to strengthen its research and development arsenal and there is no better way to highlight the same than in establishing C-CARD by KHPL, in the heart of our institute. In the near future, we envision to extend this centre of excellence with the activities of Assam Advanced Healthcare Innovation Institute, the upcoming multi-specialty hospital at IITG, to inculcate next-generation scientific and technological innovations in the area of healthcare. I thank Chief Minister Himanta Biswa Sarma and the Assam

government for their trust in making IITG one of the major knowledge and technology partners in the immediate future."

Both parties will collaborate on various initiatives including establishing large-scale onco-diagnostic services in conjunction with Assam Cancer Care Hospitals across the State to prepare a comprehensive cancer atlas for the Northeast, besides for establishment of Next Generation Sequencing and Whole Genome Sequencing facilities to identify India-specific hereditary origin of cancer, capability development on high-end data analytics using Artificial Intelligence and Machine Learning techniques, working on high-quality informatics for research and development through comprehensive genomic landscape identification, developing capacity

through academic collaboration on clinical excellence, and setting up partnerships with biotech and pharma majors, the statement added.

As a part of this initiative, in the near future, IITG and KHPL will also collaborate on research projects related to molecular biology, cell biology, genomics, proteomics, diagnostics, therapeutics, bioinformatics, data science, entrepreneurship development and other multi-disciplinary and translational areas.

"Assam has made giant strides in cancer care. Karkinos is pleased to further these efforts and partner with IIT Guwahati in bringing cutting-edge cancer diagnostics and advanced research to the people of Northeast. We see this as the first phase of a long and wide-ranging partnership that will redefine cancer care in this region and beyond," Venkataramanan said.

Chief Justice of Gauhati High Court, Justice RM Chhaya inaugurating the permanent office building of the Assam Human Rights Commission in the presence of Chief Minister Himanta Biswa Sarma at Rupnagar in Guwahati, on Saturday. - UB Photos

CM inaugurates permanent building of AHRC

GUWAHATI, Sept 3: Chief Minister Himanta Biswa Sarma today inaugurated the permanent building of the Assam Human Rights Commission (AHRC) at Rupnagar here today.

Established in 1996, the Commission was working from a rented building at Bhangagarh so far. The office building built on a plot of one bigha is now the permanent building of the Commission.

Speaking on the occasion, the Chief Minister said he felt really happy to have inaugurated the permanent building of the Assam Human Rights Commission at Rupnagar.

The Chief Minister said the permanent building will help the overall justice delivery system.

On the occasion, the Chief Minister congratulated the PWD for completing the construction of the building expeditiously in spite of several impediments, including the Covid-19 pandemic.

Gauhati High Court Chief Justice Justice RM Chhaya, AHRC Chairperson Justice T Vaiphei and AHRC member Deva Kumar Saikia also spoke on the occasion. - Staff Reporter

New CBSE, Guwahati director

GUWAHATI, Sept 3: On superannuation of KK Choudhury, director and regional officer of the Regional Office, CBSE, Guwahati, Thongkhohlet Mate, deputy secretary, has taken over the charge of the office with effect from September 1, 2022, an official release said. - Staff Reporter

Four arrested

GUWAHATI, Sept 3: Police arrested four members of Veer Lachit Sena - Kalyan Bhagawati, Bhaskar Rajbongshi, Bikram Koch and Dinamani Das - on the charges of vigilantism here today. They were arrested based on a complaint filed by a Paltanbazar-based businessman. - Staff Reporter

Minister directs pvt rehabilitation centres to ensure proper living conditions

STAFF REPORTER

GUWAHATI, Sept 3: State Minister for Social Justice and Empowerment Pijush Hazarika has directed the private rehabilitation centres to ensure proper living space, regular health check-up, nutritious food and proper toilet for its inmates within the next three months.

After holding a review meeting with the owners of private 'rehabilitation' centres in the city today in the presence of officials from the police and the health department as well as the Commissioner of the Guwahati Municipal Corporation (GMC), the minister also instructed the formation of a departmental committee which would come up with a report on the rehabilitation centres in the next two months.

During a surprise visit to one such private rehabilitation centre here on last Thursday, the minister expressed his strong displeasure over the absence of even the

minimum facilities for the inmates and announced that the government would formulate a policy for regulating the rehabilitation centres.

Addressing the review meeting at the Chief Minister's conference hall in the Janata Bhawan today, Hazarika urged the owners to follow certain norms about the minimum necessities of the inmates of their centres.

Stating that the rehabilitation centres should immediately focus on all four aspects of having a maximum of four inmates in a normal-sized room, one toilet for every 5 to 7 inmates, nutritious food and regular health check-up, the Minister directed that all necessary work should be completed in this regard within the next three months.

On the other hand, permission from the Department of Social Justice and Empowerment as well as the Health department and the district administration will be required to start a rehabilitation centre as discussed in today's review meeting. The departmental

committee formed today also comprises owners of eight rehabilitation centres. The committee would submit its report to formulate a new policy.

On the other hand, the minister said a strict vigil would be kept to ensure that no one closes their centres immediately and put the inmates in trouble.

As per today's meeting, the inmates of the centres, which would not be able to comply with the government policy and would want to close their centres after the next three months, will be shifted to government rehabilitation centres.

The government would also think about the proposal of skill development training for 1,000 such residents, in the next fiscal. Hazarika also urged the officials of the Health department and the police to work together with the Department of Social Justice and Empowerment for regular monitoring of the rehabilitation centres so that drug addicts in the State can be given a new lease of life.

MoU signed to make Assam TB-free

GUWAHATI, Sept 3: "TB requires urgent attention and it is necessary to involve corporates, public enterprises and private sector for a meaningful contribution to this national mission of TB elimination. To support this goal, India needs a united, corporate voice to help combat TB. Corporate can play a decisive role in the fight against TB," said Dr Avijit Basu, State TB Officer cum Joint Director, Department of Health Services, Government of Assam, while addressing the ceremony of MoU signing between the Federation of Industry and Commerce of Northeastern Region (FINER) and the State TB Cell, Department of Health Services, Government of Assam, held here today, stated a press release issued here today.

The objectives of this MoU is to forge convergence at policy, programme and implementation levels across the various industry members under the purview of FINER associate offices for multi-sectoral and accelerated response towards TB-free Assam and to encourage private sector participation and engagement of member industries, added the release.

KMSS stages protest

GUWAHATI, Sept 3: Police picked up several Krishak Mukti Sangram Samiti (KMSS) members while they were staging a protest in the Chandmari area of the city on Saturday.

The KMSS members staged the protest in demand to provide adequate irrigation facilities to the areas in the State, facing drought-like situation. According to police, the protesters were trying to gherao the Irrigation department office located in the Chandmari area. After picking up the protesters, police sent them to the designated protest site located in the Chachal area.

The KMSS also today submitted a memorandum to the office of the Chief Minister and urged him to ensure adequate irrigation facilities all over the State. The organisation also demanded that Assam be declared a drought-hit State and sought a special financial assistance for the affected farmers. - Staff Reporter

WEATHER GUWAHATI

LOCAL FORECAST:
Generally cloudy sky with one or two spells of rain or thundershower. Maximum and minimum temperatures are most likely to be 33°C and 26°C respectively.

TEMPERATURE:
Max 33.8°C
Min 26.2°C

Silver jubilee prog

GUWAHATI, Sept 3: The Panjabari Senior Citizens' Association (PSCA), the oldest organisation of the elderly in the State, will celebrate its silver jubilee with a daylong programme on November 23. This was decided in the general meeting of the association held at the association's office on Friday.

Addressing the meeting, senior journalist and founder member of the association, DN Chakravarty suggested programmes to be executed on the occasion with enthusiasm.

While Chief Minister Himanta Biswa Sarma is likely to inaugurate the function, Finance Minister Ajanta Neog will be the chief guest and parliamentary Queen Ojah will be the special guest. - Staff Reporter

PUBLIC NOTICE

This is to inform that, the State Level Environment Impact Assessment Authority (SEIAA), Govt. of Assam, vide its Letter No. SEIAA.1252/2020/EC/1209 dated 05th December 2020 and SEIAA-1252/2022/EC/1383 dated 06th March 2021, has accorded Environment Clearance (EC) to Vedanta Limited (Div.: Cairn Oil & Gas) for Onshore Oil & Gas Exploration, Appraisal and Early Production in AA-ONHP-2017/4 block in Jorhat Dist., Assam. The copy of the EC letters are available with the SEIAA, Assam and can also be viewed at the MoEF&CC website <https://parivesh.nic.in> and at Vedanta Ltd. (Cairn Oil & Gas) website <https://cairnindia.com>. This notice is issued in Stakeholder's interest.

WRI India, AEDA jointly launch Energy Access Explorer platform for State

GUWAHATI, Sept 3: WRI India, in partnership with Assam Energy Development Agency (AEDA), launched an online, open source, interactive geo-spatial platform for the State, called Energy Access Explorer (EAE) in the city recently. The EAE will help visualise the extent of energy access at Assam's health, education and livelihood infrastructures. This will in turn assist policymakers, renewable energy industry entrepreneurs, investors and researchers from the development sector to make integrated and impactful decisions to expand energy access in the State, in the most efficient, cost-effective and sustainable way possible. This was stated in a press release.

India's electricity access trajectory is constantly evolving. In recent years, a significant policy impetus from both Central and State governments to enhance energy access across the country has been witnessed. While India has achieved almost complete household electrifi-

cation, many crucial public infrastructures like healthcare, education and livelihood facilities continue to lack access to reliable, sustainable and affordable electricity supply. While the departments concerned have been trying to address these problems at a sectoral level, there is an urgent need to understand the links between them and to adopt an integrated approach to solve some of these challenges.

While Assam has made great strides in electricity provisioning to homes in the past decade despite its difficult terrain, and frequent extreme weather events, 37.7% of health sub-centres and 41% schools in rural Assam lack access to reliable power, and this became apparent during the Covid-19 pandemic years, the statement said.

Speaking at the event, Niraj Verma, Principal Secretary, Department of Power, Assam, outlined the State's recent achievements in providing electricity to remote and far-flung com-

munities: "Government of India's RDSS scheme attempts to provide quality and reliable power for both rural and urban areas. Energy Access Explorer could help us track demand as we expand this scheme, but more importantly, it will help us validate our claims on energy provision, and therefore provide us mid-course correction possibilities."

Dr OP Agarwal, CEO, WRI India, said: "EAE leverages the power of satellite imagery, combined with local data to visualise power supply and demand, and equips electricity planners, investors and clean energy entrepreneurs with the data they need to close the access gap. We are creating similar platforms for analysis in Kenya, Zambia, Uganda, Tanzania, Ethiopia and other Indian States."

"Access to electricity is a pre-requisite to achieve the Sustainable Development Goals (SDG) of good health, quality education, clean water, sanitation and eventually, socioeconomic development. EAE will

help us understand these linkages and will enable in developing inferences from these data sets. It will also make this information accessible to all and enable the tracking of progress of electricity and development service delivery indicators over time," said Akansa Saklani, GIS expert and programme manager at WRI India's Energy Programme as she demonstrated the workings of EAE and its use cases.

The AEDA is the nodal agency for Assam to develop the State's renewable energy (RE) sector. Mrinal Krishna Chaudhury, director, AEDA said: "In extending our support to WRI India's EAE platform, we want to send across a message - we are on the cusp of an energy transition globally, and the AEDA will ensure that Assam is not left behind. We want RE entrepreneurs to leverage the data sets provided by EAE, to look at the best use cases for renewables and to make them viable for themselves and affordable for their consumers."
